

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

As a below named inventor, I hereby declare that:

My residence, mailing address, and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,943,676, granted August 24, 1999, and for which a reissue patent is sought on the invention entitled SYNCHRONIZATION OF RECURRING RECORDS IN INCOMPATIBLE DATABASES, the specification of which

☐ is attached hereto.

☒ was filed on August 24, 2001 as reissue application number 09/939,526.

I have reviewed and understand the contents of the above -identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☐ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☒ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

When amendments were made to the claims during prosecution to replace references to a "synthetic recurring record" with the expression "set of non-recurring records", minor and obvious errors were made. For example, some references to "synthetic recurring record" were inadvertently left in the dependent claims, and in independent claims 1 and 24, an obvious error was made in the performing element - reference was made twice to the "first database", when the first such reference should have been to the "second database". I did not become aware of these errors until after the patent issued.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named inventor, I hereby appoint the practitioners associated with the Customer Number provided below to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith, and direct that all correspondence be addressed to that Customer Number.
